ABOUTTIDCO

Tamil Nadu Industrial Development Corporation Limited (TIDCO), a premier industrial development agency of the Government of Tamil Nadu, established in 1965, leverages industrial growth in the state by promoting medium and large industrial and infrastructure projects involving large investments and huge employment potential in association with Private Promoters.

TIDCO has been nominated as the Nodal Agency by the Industries

Department for promotion of Defence Industrial Corridor project in the State to effectively coordinate various activities of the project. TIDCO, in order to support the Aerospace and Defence Industries in the State is focusing on implementing Aerospace & Defence Park development programs, i.e. supporting the existing industrial units technically and attracting more companies towards creating an integrated ecosystem for Aerospace Industry development covering design, engineering, manufacturing, servicing and maintenance of assets. TIDCO while focusing on the A & D sector, is also keen to support the growth of industries in other sectors like electrical, automotive, forging & castings, precision manufacturing, electronics, machines & equipment manufacturing to name a few. One such initiative is the proposed industrial Park at Varapatti village, Sulur Taluk, Coimbatore District.

TIDCO has identified a land parcel at Varapatti Village, Sulur Taluk measuring about 366 acres. This is close to the Chennai-Coimbatore National Highway and is well connected. It is at a distance of about 30 and 50 kms from Coimbatore and Tirupur cities respectively which have their own industrial ecosystems. It is also about 200 kms from Kochi which has a thriving ship building industry which also depends to a large extent on the Coimbatore based industries. It is also in proximity to the military think-tank institution of Defence Services Staff College, Wellington. This locational advantage provides it the required social, industrial, strategic and educational ecosystem which are very much required for development of the high-tech industrial ecosystem.
